## Can you create the winning portfolio?

*It's time to take up the challenge.*

**Registrations are open** and the Game starts 3 August.

**To register**, sign up to or log into MyASX, select the Game and register. For additional help see - How to register.

**Once you are registered**, take the time to look around the Game, do some research and set yourself a plan.

## Create your own competition... and your team could win!

Create your league and invite family, friends or workmates. You get to play as a team; play against each other (have your own prize for the top player); talk about what you are learning or investing in and why; and keep each other motivated. Plus there are league prizes you could win.

Read what our previous league winners said about the benefits of being in a league:

*"Join a league as it brings some else to the Game to motivate you to do well..."*

*"Playing as a team helped as our players could share tips on what shares were good and what ones were bad. I highly recommend playing the share market Game to others looking to get an easy understanding of how the share market works without the stress."*

## New to the Game?

Watch the Game videos on the 'How to Play' page. This will make it much easier to understand how the Game works. You can learn how to:

- place an order
- set up a league
- use a falling sell order
- and more

Plus there are additional help guides and steps to get you started.

One of the biggest challenges players have is getting their head around the different types of orders...so before you start playing, take the time to review the different types of orders there are in the Game.

- Market to limit & Limit orders
- Falling sell (stop loss) order type

## New to the sharemarket?

We have a free online shares course that covers the essentials of shares. Also the ASX Investment videos from industry experts will help keep you up to date on what is happening in the sharemarket.

Watch for the **Game Start newsletter** 3 August, as there will be more tips to help you with getting started.

## Articles / Videos you might find helpful

- What I learned from Australia's best investors by James Marlay, Livewire Markets

**A tool to help you with your research – Simply Wall St**

Simply Wall St are back again to provide all game players with unlimited access to their institutional quality financial data and analysis tool, for the whole period of the Game.

If you didn't use it in the last Game, it is well worth a look.

This tool provides you with a detailed fundamental analysis on every listed company through beautiful, easy to understand infographics. It helps you research your existing investment ideas, discover new investment opportunities utilizing their innovative data filtering abilities and also does an excellent job at analysing your portfolio. They are using Standard & Poor's financial data, updated every 6 hours.

You can access the tool once you have registered for the Game. You are under no obligation to continue to use the service once the Game has finished.

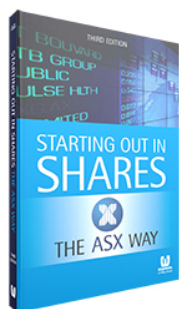

Regards,  
The Games Team
