

The countdown begins...

Wow, how quickly time flies. Can you believe it, the Game finishes on 25 October!

Throughout the Game there has been a constant change of syndicates; however, this past few weeks the top 3 - 4 syndicates have been battling it out.

Right now we have:

- Sean from Hellyer College in TAS in the top spot on \$66,923, they have a good lead of \$1,492.
- Ashely from Western Heights College, VIC is in 2nd place at this stage with a portfolio value of \$65,431.
- Only \$327 behind is SavannahH from Quilpie State School, QLD on \$65,104.

It's going to be a close finish. Who will take out the top spot? Will it be one of these 3 or will we be surprised by a latecomer?

This is a crucial time where one big change in your portfolio can move you up or down the final rankings and the market has been very choppy this time around, so there is no telling what the final 2 weeks will bring us.

So we say, if your strategy has served you well to this point - be careful of making any last minute panic decisions - keep going back to your plan before deciding to buy or sell.

Just a reminder: You do not have to sell all the shares in your portfolio on the final day, as the rankings are based on the value of your shares plus any cash you have remaining.

Also remember: **To be eligible for prizes**, please make sure you have bought at least 4 different companies over the period of the Game. If you haven't done this, have a talk with your teacher, you may need to do a little more buying so that you are eligible for prizes.

Final rankings: The rankings will not be hidden at the end of the Game. However, the rankings will not be final until they are confirmed on 2 November in the End of Game newsletter.

We'd love your feedback - complete our end of Game survey here.

Goodluck,
The Games team
