

## The countdown begins...

Can you believe it, **the Game finishes on 24 October!**

### Who will take out the top spots?

- Zack from St Luke's Grammar School, NSW has been holding 1st place for the past 6 weeks. His portfolio is sitting at \$58,612.
- Falaherties from Albany Senior High School, WA has jumped into 2nd place on \$57,305.
- Coming in 3rd is Campbell from Brisbane Boys College, QLD with a portfolio value of \$56,802.

This is a crucial time where one big change in your portfolio can move you up or down the final rankings. This has not been an easy market to trade in, with some significant falls happening, so there is no telling what the final 2 weeks may bring us.

So we say, if your strategy has served you well to this point – be careful of making any last minute panic decisions - keep going back to your plan before deciding to buy or sell.

**Just a reminder:** You do not have to sell you the shares in your portfolio on the final day – the rankings are based on the value of your shares plus any cash you have remaining.

Also remember: **To be eligible for prizes**, please make sure you have bought at least 4 different companies over the period of the Game. If you haven't done this, have a talk with your teacher, you may need to do a little more buying so that you are eligible for prizes.

**Final rankings:** The rankings will not be hidden at the end of the Game. However, the rankings will not be final until they are confirmed on 1 November in the End of Game newsletter.

**We'd love your feedback** - complete our end of Game survey [here](#).
